

Presentation: Monitoring and Evaluation of Restorative Justice Programmes

International Juvenile Justice Observatory — Expert Consultation on Restorative Justice, Bali

2013

Introduction

This presentation by International Juvenile Justice Observatory was delivered at the Expert Consultation on Restorative Justice, Bali. It examines key issues related to violence against children with a focus on monitoring and evaluation of restorative justice programmes.

Key Points

- * Overview of the situation and evidence base
- * Existing legal and policy frameworks
- * Good practices from national and regional experiences
- * Challenges in implementation
- * Recommendations for strengthened action

Conclusions

International Juvenile Justice Observatory calls for strengthened political commitment and improved coordination between governments, UN agencies, civil society, and communities to protect children from violence.
